ELDAT

Hand Transmitter   RT20

Easywave

The RT20 is a hand transmitter designed for universal use. It can be used together with any Easywave receiver in any operation mode which is available.

E.g. it can be used for controlling shutters or awnings as well as for switching other electric devices.

An easily visible LED flashes when the battery needs to be changed.

RT20E5004-01-23K
