RTS22   Wall switch CALL   complete — Format 55

The RTS22 wall switch CALL from the Format 55 series is a battery-operated Easywave transmitter with a red call-button.

This complete version of the RTS22 wall switch contains all the components required to be put into operation immediately. The transmitter module, a white frame and a red single rocker are included in the scope of delivery.

Additional individual rocker variants are also optionally available in other colors as accessories. If necessary, the wall switch can be used in cover frames from other manufacturers.

It can be used for paging in conjunction with the RCP25 socket pager, the RCP24 radio bell or the Easywave Fon Alarm. A connection to care systems, e.g. as a call button for nurse call systems, is also possible.

RTS22E5001A04-40K

Technical specifications
