secwave

ELDAT

RT42   Hand transmitter

The RT42 hand transmitter is a wireless transmitter which transmits the secwave code at the push of a button, and activates the secwave wireless receiver according to the selected mode.

The transmitter has a battery control function which checks the battery capacity. If the battery capacity is low, the LED flashes after the transmitter button is released.

RT42S5004A01-21K

Technical specifications

Coding	factory coding with secwave telegram, AES 128-bit encryption
	Not compatible with Easywave products!
Frequency	868.30 MHz
